## TRUSTED **GLOBAL PARTNER**

Mega products manufactured in the USA or with any of our global partners, are backed by a global sales, parts and technical support team.

## UNMATCHED **VALUE**

The strength of Mega's brand, solid product support and long product life result in unsurpassed resale value.

## SPECIALTY PRODUCT SOLUTIONS

Mega's sales, engineering and product support team members use their product knowledge to develop the right solutions for specialty construction and mining applications.

## INDUSTRY-LEADING **SUPPORT**

Sold through OEM dealers, Mega products seamlessly integrate with top truck and wheel tractor brands to maintain full OEM chassis warrantability and are backed by a one-year unlimited hours parts and labor warranty.

## DRIVEN BY **EXPERTISE**

As we approach our 50th year in business, our skilled team of 100+ employees use their experience to design, manufacture and support Mega equipment.

## PERFORMANCE AND DURABILITY

Mega tanks, water pumps, spray heads and water cannons are engineered to perform for the life of the machine.

## ENGINEERED TO WORK AS A SYSTEM

Mega spray control systems and trailer braking systems are designed for seamless integration with the chassis hydraulic, electrical and pneumatic systems.

# POWERING PRODUCTIVITY

BUILT TO LAST, ENGINEERED FOR PERFORMANCE

Mega's water distribution equipment includes tanks for articulated, rigid frame trucks and scraper wheel tractors. Our tanks and spray systems offer a wide range of options including stainless steel pumps and piping, hydraulically operated water cannons, foam agent systems and corrosion-resistant coatings. We also offer stand-alone portable water tanks and mobile pumps to maximize productivity.

## DURABLE SOLUTIONS FOR EXTREME OPERATING ENVIRONMENTS

### MATERIALS

Mega water tanks are available with extensive corrosion resistant features for all water-facing surfaces. Epoxy interior coatings are combined with stainless steel water pumps, spray heads, control system enclosures, water cannons, piping and valves.

### CONSTRUCTION

Mega trailers utilize a forged steel alloy hitch ball and bronze alloy bearing for exceptionally long life under extreme loading conditions.

### VALUE

To maximize machine availability, Mega incorporates OEM components and materials, including hydraulic hose and fittings, axle and brake system components, ground-engaging tools and partial machine arrangements.

### INTEGRATION

Mega works closely with engineers at construction and mining equipment OEM's to ensure optimum integration of our products with the on- and off-highway truck and tractor chassis – thereby preserving the OEM machine's performance and warranty.
