### B-4J Water Pumps

The B-4J water pump is widely-used and has a durable, proven design. Mega offers this water pump for the convenience of customers with existing fleet B-4J parts commonality.

- Both plain keyed shaft and direct motor mount versions are available.
- Can be purchased with either a rope-packing seal or a mechanical seal.
- A trimmed impeller for low horsepower applications is available.

### The B-3 & B-3Z Water Pumps

The Berkeley B-3 and the B-3Z frame water pump is likely the most commonly used water pump in the mobile water tank industry. Mega maintains a complete stock of replacement water pumps and repair parts. As a Berkeley dealer for over 30 years, we are well versed in all technical aspects of this and other Berkeley open centrifugal water pumps. Contact us today for more information.

### B-4Z Water Pumps

This clockwise-rotation water pump is self-priming and is used for the suction loading option on Mega's smaller water trucks. It is available in both plain-keyed shaft and direct motor mount versions.

### B-6Z Water Pumps

This inexpensive water pump is still commonly found in older machines. Mega offers this pump for the convenience of customers with existing B-6Z stock parts. This pump is available in both direct motor mount and plain keyed shaft versions as well as either clockwise or counterclockwise configurations.
