GENUINE MEGA

Specialty Haulage Solutions for Construction & Mining

DECADES OF **DEDICATION** AND **EXPERTISE** BUILT INTO **EVERY** PROJECT

Since 1976, Mega has been responsible for the design and manufacture of specialty haulage equipment for use in global construction and mining applications. With over 6,000 machines delivered, our products are well-known for their reliability and durability.

Our employees take pride in their workmanship, earning Mega a reputation for quality & integrity. Our sales and support staff are known for their application knowledge and custom solutions, contributing to our strong brand recognition and high resale value.

Mega products, parts, and service are available at OEM dealers worldwide. For more information, please contact us at +1.505.345.2661, or toll-free in the USA at 1.800.345.8889. Visit our website @ www.megacorpinc.com.

Built to last. Designed to perform.

MEGA CORP.

700 Osuna Rd. NE
Albuquerque, NM 87113
(505) 345-2661

Manufacturers of construction & mining equipment

TRUSTED **GLOBAL PARTNER**

Mega products manufactured in the USA or with any of our global partners, are backed by a global sales, parts and technical support team.

UNMATCHED **VALUE**

The strength of Mega's brand, solid product support and long product life result in unsurpassed resale value.

SPECIALTY PRODUCT SOLUTIONS

Mega's sales, engineering and product support team members use their product knowledge to develop the right solutions for specialty construction and mining applications.

INDUSTRY-LEADING **SUPPORT**

Sold through OEM dealers, Mega products seamlessly integrate with top truck and wheel tractor brands to maintain full OEM chassis warrantability and are backed by a one-year unlimited hours parts and labor warranty.

DRIVEN BY **EXPERTISE**

As we approach our 50th year in business, our skilled team of 100+ employees use their experience to design, manufacture and support Mega equipment.

PERFORMANCE AND DURABILITY

Mega tanks, water pumps, spray heads and water cannons are engineered to perform for the life of the machine.

ENGINEERED TO WORK AS A SYSTEM

Mega spray control systems and trailer braking systems are designed for seamless integration with the chassis hydraulic, electrical and pneumatic systems.

POWERING PRODUCTIVITY

BUILT TO LAST, ENGINEERED FOR PERFORMANCE

Mega's water distribution equipment includes tanks for articulated, rigid frame trucks and scraper wheel tractors. Our tanks and spray systems offer a wide range of options including stainless steel pumps and piping, hydraulically operated water cannons, foam agent systems and corrosion-resistant coatings. We also offer stand-alone portable water tanks and mobile pumps to maximize productivity.

BUILT FOR THE BIG JOBS

TOUGH PRODUCTS FOR DEMANDING JOBS

Mega haulage products include gooseneck trailers built for performance and durability in demanding off-highway applications. Designed with carefully matched components, they seamlessly integrate with OEM off-highway trucks ensuring a reliable high-performance haulage solution.

MEGA TOUGH, MEGA VALUE

DURABLE SOLUTIONS FOR EXTREME OPERATING ENVIRONMENTS

MATERIALS

Mega water tanks are available with extensive corrosion resistant features for all water-facing surfaces. Epoxy interior coatings are combined with stainless steel water pumps, spray heads, control system enclosures, water cannons, piping and valves.

CONSTRUCTION

Mega trailers utilize a forged steel alloy hitch ball and bronze alloy bearing for exceptionally long life under extreme loading conditions.

VALUE

To maximize machine availability, Mega incorporates OEM components and materials, including hydraulic hose and fittings, axle and brake system components, ground-engaging tools and partial machine arrangements.

INTEGRATION

Mega works closely with engineers at construction and mining equipment OEM's to ensure optimum integration of our products with the on- and off-highway truck and tractor chassis – thereby preserving the OEM machine's performance and warranty.

TRUSTED GLOBAL MANUFACTURING PARTNERS
